

Introducing **EXC**
Advanced Hybrid DeFi

Scale of Global DeFi Today

Average Daily lock-up funds: USD \$980 Million

Total Annual Turnover: USD \$31 Billion

Average Daily Loans Value: USD \$113 Million

Average Daily Trades: 2,000

Decentralized Finance (DeFi)

- Digital currency provides for the ownership and transfer of digital assets, and the decentralized management of digital assets.
- DeFi solves the "credit derivative" problem of using digital assets for financial transactions, and allows for decentralized financial transactions of digital assets.
- EXC Hybrid DeFi brings additional powerful Centralized Finance (CeFi) attributes to DeFi.

Advantages of Hybrid DeFi

Hybrid DeFi adds three distinct CeFi functions over and above the features of conventional DeFi trading:

- Leveraged Trading, Margin Loan Trading
- Limit Orders
- Hybrid DEX is not restricted to real-time trading

EXC Economic Model

Capital raising for 4 mining modes:

- Liquidity Pool
- Mortgage Lending
- AMM (automated market maker)
- Leveraged transactions (margin lending)

Total EXC: 1 Billion Coins

Distribution

- 15% Team Rewards
- 5% Marketing, Brand Building, Bug Rewards
- 79.5% Mining (reward per block 50EXC)

Fees

- Trading transaction fee: 0.3%
- Leveraged transaction fee: 0.4%
- Loan interest rate: 5%

Capital We Are Seeking

Development (4 months) AUD \$2 Million

1. Smart Contracts; Mortgage Lending Systems
